PRODUCT DESCRIPTION

Payroll management provides an efficient solution for dealing with all aspects of compensation.
It centralises staff data and ensures its confidentiality.

Multi-company and multilingual, it meets the requirements of many different types of companies.
The product, besides managing payroll-related legal aspects, allows you to analyse all staff costs according to different criteria.

A management tool, with custom and user-specified reports, it keeps track of employee and/or employer shares as well as personal data.
