The PEPPERMINT ANALYTICS module, an indispensable management control tool, enables you to identify and evaluate the components of the year's results for interpretation and use:

- Analysis of each product and its costs to obtain a mass of expenses in relation to a cost center.
- Results by decision center, for better management, or consolidation by activity line, to better assess the situation.

## PRODUCT HIGHLIGHTS

- Analytical chart of accounts..
- O Entry of a posting line with multiple cost allocation.
- Ø Multi-dimensional analysis and unlimited variable size.
- 🤣 Immediate access to analytics from Journal, Balance Sheet and Profit & Loss views.
- Analytical report with selectable analytical dimensions.
- O Movement of analytical accounts with General Ledger balance.
- O General ledger account movements with analytical accounts.
- 🔗 Balance sheet and PP by cost center and analytical dimension.

PEPPERMINT ANALYTICS V 1.0 Translated by Deepl

# Technical specifications

#### GENERALITES

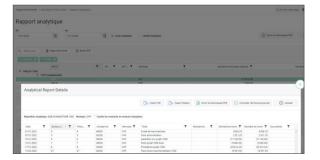

- Setup and breakdown of chart of accounts.
- Multi-company, multi-language.
- Data entry based on analytical dimensions.
- Filters and sorts on account dimensions.
- Ability to create values when entering an account entry.

#### DISPLAYS & PRINTS

- Account balancing with customized filters.
- Account balancing from cost accounting and vice versa.
- Movement of analytical accounts with balance General ledger and cascade display.
- Movement of General Ledger accounts with and cascade display.
- Display and print balance and P&L results P&L by cost center.
- Balance sheet and P&L with analytical filters.
- All printouts can be exported to Excel and in PDF format.
